Name / Surnames: Alberto Bolta Sanmateu   **Course: 1º**

ASSESSMENT 1

Total score	18

Task 1
Listen to the 3 conversations in the <u>audio file</u> attached and complete the table. What kind of computer has each person bought? What is the relationship between the two members of each dialogue (e.g. a teacher and a student, two friends, etc.)? There may be more than one answer.

SCORE: 1 point for each correct answer / 0.5 points for correct answer with inaccuracies or grammar mistakes

	Type of computer	**Relationship**
1. Matt and Steven	Tablet	Friends
2. James and Helen	Smartwatch	Family
3. Nick and Ian	Computer	Seller and client

	6

Task 2

Listen again and answer the following questions

Conversation 1
    a) Why did Matt buy a new computer?
        He is tired of carrying his heavy laptop everywhere. Need something lighter

    b) What is the processor speed and the capacity of the internal memory?
        1 GHz dual processor and 60 Gb of internal memory

    c) How much did the computer cost? What does Steven say about the price?
        It was 325 euros, but he got a 10 % discount with the student card and paid 295 euros

	3

Conversation 2

    a) What can James do with his new gadget?
        Check the emails / Read / Listen music / Download apps

    b) Why did James buy the watch?
        He always wants to have the latest technology

    c) Why is the woman angry?
        Because it's too expensive, and he don't have a job

	3
